PROFESSIONAL SUMMARY

Analytical professional with 6+ years of experience in Operations & Maintenance Engineering, currently transitioning into Data Analytics. Proficient in Excel, Power BI, SQL, KPI tracking, and data visualization to improve operational performance. Experienced in Root Cause Analysis (RCA), process optimization, and delivering actionable insights to support data-driven decision-making.

SKILLS SUMMARY

Data Analytics: Data Cleaning & Transformation, Exploratory Data Analysis (EDA), KPI Analysis, Reporting

BI & Tools: **Power BI** (DAX, Power Query), Excel (Pivot Tables, Macros), SQL (Joins, Aggregations), Tableau

Engineering & Operations: Preventive Maintenance, Equipment Monitoring, RCA, Process Optimization

Soft Skills: Problem Solving, Communication, Critical Thinking, Collaboration

WORK EXPERIENCE

Operations & Maintenance Engineer | SEC COMM Pvt. Ltd & V Inspire FM Pvt. Ltd

UP112 Emergency Project | Dec 2018 – Present

- Monitored and analyzed operational performance data using Excel dashboards, contributing to reduced equipment downtime.
- Developed daily and monthly KPI and BI reports to support management decision-making.
- Conducted Root Cause Analysis (RCA) and implemented preventive maintenance strategies.
- Supported inventory and spare-parts analysis, reducing excess stock and improving availability.
- Resolved customer technical issues and performed system and network troubleshooting.

CSE (Networking) | Reliance Jio | 2017

- Performed network configuration, troubleshooting, site surveys, and service optimization.

Computer Operator | TMB Pvt. Ltd | 2015 – 2016

- Managed system operations, documentation, and basic reporting activities.

Store Keeper | Indo Asian Pvt. Ltd | 2014

- Maintained inventory records and supported stock analysis and reporting.

PROJECTS (DATA ANALYTICS)

Event Performance Dashboard – Power BI

- Problem: Manual monitoring of event response times.
- Action: Built interactive Power BI dashboards using cleaned operational data.
- Result: Automated reporting and reduced manual effort by 50%.

Customer Data Analysis – Power BI & SQL

- Cleaned and analyzed 10,000+ event records using SQL queries and Power BI.
- Identified performance patterns and recommended operational improvements.

Maintenance Data Analysis – Excel

- Analyzed machine breakdown data to identify recurring issues.
- Proposed preventive actions, reducing downtime by approximately 20%.

EDUCATION

Data Analytics Course | Coding Ninjas (NSDC)

Bachelor of Computer Applications (**BCA**) | Maharshi Dayanand University | 2013

CERTIFICATIONS

Data Analytics Professional Certificate – Coding Ninjas (NSDC)

Advanced Excel – Coding Ninjas

SQL for Data Analysis – Coding Ninjas

Power BI & Tableau – Beginner to Advanced
